How It Works:

There are bells tied to trees in 12 different parks in southwestern Illinois. Use this brochure to visit each park and find the bells between Thanksgiving Day and New Year’s Day.

Then:
1. Take a selfie with the bells on the tree.
2. Submit your selfie by using your camera to scan the QR code found on the tree tag or on this brochure. You can type in the link to access the entry form too.
   • On the form, select the park name, enter your bib number, and submit your photo. (Please submit a separate entry for each person in your group.)
   • BONUS ENTRY: For each submission, you will be awarded an extra entry if you can correctly name the tree species (example: red oak). Pro-tip: Read the tree tag for help.

▶ Only registered participants are eligible for prizes. Register at: https://heartlandsconservancy.org/jingle-hike-challenge/
▶ For each submission, you will be entered into a prize drawing. Must be registered and 18 or older to win.
▶ If you find 6 or more of the bells, you will be entered to win one of the grand prizes.

NOTE: The P does not represent the exact location of the bell within the park. It represents the approximate location of the parking area or trailhead.
**EDWARDSVILLE TOWNSHIP PARK WALKING TRAIL (AIRPLANE PARK)**
